### 2013 North Attleboro High School Football Program Book Personal Messages/Well Wishes

In 2011 for the first time parents and relatives were offered the opportunity to place personal messages in the football program book at a special reduced rate. The program book has always been a nice memento of the season for players and their families. The inclusion of individual messages provides an added personal touch and has been well received.

Some parents were very creative (see example below) coming up with their own designs. Unfortunately most parents were not aware of the option until the parents meeting in August and due to the limited time until the program book had to go to print their options were limited. We wanted to make sure everyone was aware of the options with adequate time this year. Ordering information follows.

*Please be aware personal messages are being offered to Gridiron members at a reduced rate reflecting print space costs. This is intended as a gesture of goodwill for family and friends. No business or promotional material is allowed as part of personal messages.*
